WELCOME!!!

It is with great pleasure and enthusiasm that the Nash County Extension Service, a dedicated group of Master Gardeners, and other volunteers present the Nash County Arboretum. The result of hundreds of hours of planning and installing beds and pathways, this is a PUBLIC GARDEN (a place for all people to come for education, enjoyment, or simply inspiration).

Arboretums (by design) have historically provided various services for the surrounding community. This public garden's mission statement is likewise multifaceted. It is the intent of this arboretum to promote professional development of the green industry, urban forestry industry, as well as educate home gardeners. In addition, we aim to provide full accessibility to the gardens, provide opportunities for volunteerism, and multicultural awareness. Finally, it is our overriding intent to make this arboretum a beautiful, fun, and relaxing place to visit.

In closing, we would like to invite you to participate in the Nash County Arboretum. Participate in its upcoming programs and workshops. Participate by strolling through the various gardens on a self-guided tour. Participate by volunteering your time and talents or a monetary gift. This is Nash County's Arboretum; a garden for each and every one of us.
